## WORK HISTORY

### AxCrypt Software Pvt. Ltd. - Technical Product Manager

Bangalore • 12/2023 - Current

- **DEVELOPMENT** | C# .NET, .Net Core, HTML, VUE JS, CSS  
: Proficiency in developing applications in C# with migration to .Net Core and migration from Xamarin to .Net MAUI Framework with Unit Testing and Version control systems. Substantial front-end experience with developing interactive and responsive user interfaces ensuring cross browser compatibility by adhering to best practices.
- **DATABASE** | SQL  
: Ensured data integrity, performance and implementing robust solutions for diverse data models.
- **TOOLS**  
: Visual Studio, Stripe, Google Analytics, FCM, Data Analytics, Team City, Regulatory Compliance norms like HIPAA, GDPR and NIS2.
- **PRODUCT MANAGEMENT** | Agile, Jira, Scrum, Confluence  
: Spearheaded a crucial role in planning, cost-estimation, pre-discovery, designing and code-review of the product. Managed a cross-functional team and involved myself in developing a comprehensive product road-map. Also kept the website updated with latest data, new feature guidelines, blogs and other app feature improvements leading to higher search and better SEO score. Monitored KPIs and metrics on product performance hence facilitating myself directly into decision-making and strategic planning. Constantly tracking competitors.
- **CUSTOMER INDULGENCE**  
: Involved myself actively in gathering feedback and resolving direct customer issues hence allowing me to prioritize features and improvements.
