-

Technical Skills

- **Programming:** .NET MVC, .NET Core, C#, Angular, JavaScript, TypeScript, HTML, CSS
 - **Cloud Services:** AWS (EC2, S3, IAM, CloudWatch, Route53, Load Balancing, Auto Scaling)
 - **DevOps & CI/CD:** Jenkins, Git, Serverless Architecture
 - **Database:** MS SQL Server, MongoDB
 - **Version Control:** Git, TFS
 - **Other Technologies:** REST API, Microservices, Web API
-

Work Experience

Technical Specialist- Continental Automotive PVT LTD (Jun 2022 - Dec 2024)

System Management Tool (SMT)

- Technologies: .NET Core (Backend), Angular (Frontend), AWS (Cloud Deployment)
- Mentored team members in India, providing guidance and technical leadership.
- Experienced in agile practices including scrum calls, sprint planning, daily stand-ups, backlog refinement, sprint retrospectives, and other related processes.
- Angular applications to the latest version, ensuring enhanced performance, security, and compatibility with modern frameworks and best practices.

- Provided support for R&D by designing, implementing, and managing CI/CD pipelines for cloud deployment in a serverless architecture. Hosted the Angular application on an Amazon S3 bucket with Cloud pipeline for optimized delivery. Developed backend APIs using AWS Lambda and exposed them via API Gateway, which interacted with DynamoDB for data storage. Integrated API Gateway-generated URLs into the Angular frontend to enable seamless data retrieval and dynamic interactions. Additionally, deployed .NET APIs as AWS Lambda functions, leveraging API Gateway to handle requests and ensure scalable, event-driven execution.
- Provided comprehensive production support, ensuring the smooth operation of systems, troubleshooting issues.

IT Consultant- ITC Infotech PVT LTD (Jun 2018 – Jun 2022)

GDO Address and Payments

- Developed an application for managing shipping addresses and payments for Herbalife.
- Utilized **ASP.NET Core** for backend development and **Angular** for frontend integration.
- Implemented **REST APIs** for efficient data communication.
- Maintained code quality using **TDD practices and SonarQube**.
- Provided **production support and enhancements** for global rollout countries.

Software Engineer - Accenture Solutions PVT LTD (Nov 2014 – May 2018)

ETHOS Dashboard

- Developed and maintained a **web dashboard using ASP.NET MVC and WCF services**.
- Designed and implemented **UI components** using Razor, jQuery, and AJAX.
- Created reports and charts using **JQWidgets plugins**.
- Provided **production support and bug fixes**.

Education

B.E in Electronics and Communications

Sri Taralabalu Jagadguru Institute of Technology, Rannebennur (2010-2014)

Certifications

- **AWS Certified Devops Professional - In Progress**
-

Achievements

- Received **TAP (Talent Appreciation Program) Award** as an **ACE Performer** (ITC Infotech Pvt Ltd).
 - **Spot Award** in **Continental**.
-
